

Talking with Youth About Cannabis

Designed for parents, teachers and professionals
involved in the lives of youth

This webinar offers suggestions for parents, guardians, teachers or care providers in order to help guide discussions with youth in their lives about cannabis use, while sharing of resources available for the support of youth.

Join us as we explore:

- Risk and protective factors associated with cannabis use
- Our personal perspectives about cannabis and how that makes a difference when speaking with youth
- Achievable goals when speaking with youth about cannabis
- The importance of appropriate, youth-friendly language and strategies to create a safe, receptive environment
- Evidence-based information regarding youth and cannabis use to help inform discussions
- Strategies to creating a safe and receptive environment
- Where to find additional resources, support and information regarding cannabis use, as well as services provided across Canada for youth regarding substance use and wellness
